

Spiral Nozzle

► Features

- Highly resistant to clogging.
- Large spray flow rate yet space-saving installation.

► Application

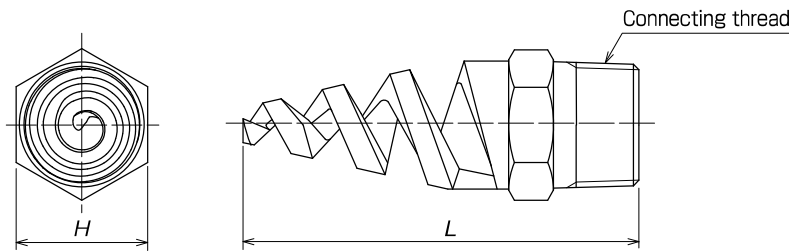

- Spraying of slurry in exhaust gas desulfurizers.

► Materials

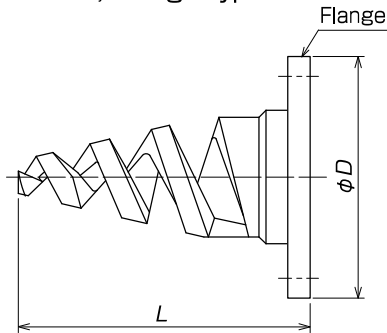

- Stainless steel
- Ceramics

Shapes and dimensions

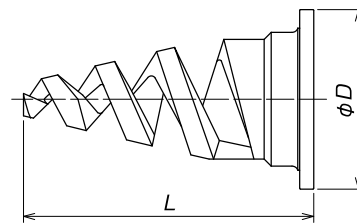

● KSP, Male thread type

● KSP·····F, Flange type

● KSP·····RJ, Lap joint type

* Dimensions are determined according to user's specification requirements.

● Model and Model Number representing

《Thread type》

3	K S P	2900120
Thread size	Material S - Stainless steel	Model number

《Lap joint type》

3	K S P	2900120	R J
Inlet connection	Material S - Stainless steel CE - Ceramics	Model number
